

OPERATION CLEAN SWEEP® (OCS) VERIFICATION NOW OFFERED BY ABS-QE

ACHIEVE ZERO PLASTIC RESIN LOSS WITH CONFIDENCE

For organizations in the plastics industry, achieving zero plastic resin loss is more than a goal—it's a commitment to environmental responsibility and operational excellence. Operation Clean Sweep® (OCS) provides a structured framework to help companies achieve zero resin loss while demonstrating their commitment to sustainability. ABS Quality Evaluations (ABS-QE) now offers OCS Verification audits (OCS Blue & OCS Logistics) to support your efforts in meeting the plastics industry's cleanliness standards and advancing environmental stewardship.

Why OCS Verification Matters

Plastic resin loss doesn't just harm the environment, it also impacts operational performance and compliance with industry standards. By implementing OCS, companies take proactive steps to prevent resin loss, reduce environmental risks and align with global sustainability goals.

OCS Verification audits provide a structured evaluation of your processes, ensuring adherence to best practices for resin containment. Whether integrated with existing audits or conducted as a stand-alone service, OCS Verification helps your organization demonstrate its commitment to sustainability and operational excellence.

Why ABS-QE is Your Trusted Partner for OCS Verification

ABS-QE offers a streamlined efficient approach to OCS Verification, leveraging our expertise in environmental and sustainability audits.

- **Simplified Process:** Your current auditor for RCMS®, RC 14001® and ISO 14001 audits can also perform your OCS Verification audit, eliminating the need for a new auditor.
- **Streamlined Scheduling:** Work with your existing scheduling point of contact to ensure a seamless process.
- **Integrated Efficiency:** Combine OCS Verification with your current environmental audits to save time and resources.

Flexible Audit Options

ABS-QE offers OCS Verification audits in two formats to meet your organization's unique needs:

- **Combined Audits:** Perform OCS Verification with RCMS®, RC 14001® and ISO 14001 audits for a comprehensive environmental assessment.
- **Stand-Alone Audits:** Conduct OCS Verification independently to focus solely on resin loss prevention.

About Operation Clean Sweep® (OCS)

Founded by the Plastics Industry Association (PLASTICS) in 1991, Operation Clean Sweep® is an industry-led program managed in partnership with the American Chemistry Council (ACC) and 22 other associations worldwide. The program helps companies achieve zero plastic resin loss, protecting the environment and advancing sustainability across the plastics industry.

Take the Next Step Toward Zero Resin Loss: Partner with ABS-QE to demonstrate your commitment to environmental responsibility and operational efficiency. Contact us today to schedule your OCS Verification audit and join the global effort to eliminate plastic resin loss.
